Additional Notes:

Light snow moves into our region from the west beginning late this evening. The light snow will continue into Tuesday with accumulations greater than 1" by dawn. The light snow will continue throughout the day and into the evening hours before tapering down to snow showers.

(Radar Image Enclosed)

ACTION PLAN:

We will mobilize on pre-approved accounts in the pre-dawn hours to ensure service prior to business openings. On the multi-facility accounts, we will monitor throughout the day and mobilize as contract thresh holds are met. The heaviest snowfall amounts will be found in the southern section of the south region. Please look for an update from M&J on Tuesday morning with estimated plow start times on the multi-facility properties.

1:00PM EST 10-JAN-11
